Subject: Fw: rest of the residents.....

Here is Dawn's review and I have also re-attached the memo I sent to her earlier in the month. Elevated metals but does not appear to be a risk to Dawn. I also have not cross checked ATSDRs work on their maximum hits table. I am not sure that we will be able to calm Mrs Maye down - she is the one that sent the original memos to the paper when we originally contacted the residents to do the well surveys. This may be a trip for ATSDR and Trish -

I expect that Stephanie may be able to look at the data that we have for the Mayes - their number is HW-14

Dawn...et al.

Just to be clear...we need this expedited, but plan to include additional residents beyond the 3 in a future action memo. So the opinion on the 3 remaining write up should stand alone.

then send us opinion on the rest.

thanks Rich
